

MILTEX HI-LIGHT

LUXATING ELEVATORS

Straight or Curved Blade

Range of styles and sizes for most applications.
Can be resharpened.

Unique Handle Shape

Creates less force on tooth, reducing chance of tooth fractures.

One-Piece Stainless Steel Construction

Tip will not separate from handle.
Provides strength and durability.

Miltex® Luxating Elevators are designed to make extractions as trauma free as possible by cutting the periodontal ligament while easing the tooth from the socket. The result is less tissue damage that promotes quicker healing and fewer complications. It is used by rocking and cutting rather than lifting and prying like a conventional elevator. The patterns include both straight and curved blades ranging from 2mm to 5mm. The sharp blade can be resharpened.
